Methodology for Credit-Linked Notes and Instruments Whose Rating-Relevant Terms May Change Due to Specified Events

This rating methodology replaces the *Rating Obligations with Variable Promises* methodology published in April 2016. The methodology has been renamed, as we have narrowed the focus to credit-linked notes and instruments whose terms may change due to specified events. We have added greater detail on our approach to rating credit-linked notes and on the types of alternate security provisions that are relevant to ratings and how we consider these alternate security provisions. We have also streamlined the document by removing non-methodological information.

Introduction and Scope of This Methodology

In this cross-sector rating methodology, we outline broad principles for rating credit-linked notes whose payment terms are dependent upon the credit performance of another entity in addition to the issuer.

Separately, this methodology also provides guidance on the rating implications of certain material terms (e.g., a change in seniority) that are subject to change based upon events specified in the issuance documents, and may result in changes to a security's rating-relevant terms (as defined below).

Guidance in this cross-sector methodology supplements other methodologies and applies to instruments issued in all fundamental rated sectors globally.^{1,2}

¹ In this report, we use the term fundamental to describe issuers and transactions other than structured finance, i.e., nonfinancial corporates, financial institutions, project finance issuers, sovereigns, sub-sovereigns and US public finance entities.

² The additional guidance in this cross-sector methodology applies unless specified otherwise in sector-specific methodologies. A link to an index of our sector and cross-sector rating methodologies can be found in the "Moody's Related Publications" section.

Credit-Linked Notes: Obligations Linked to the Credit Performance of a Separate Entity³

Payments under a two-party credit-linked note typically depend upon the credit performance of the issuer as well as another specified entity. When rating such credit-linked obligations, we incorporate the credit risk of the referenced third party in addition to the credit risk of the primary obligor, and we rate to the lower of the two, absent any support mechanisms. For example, a bank might issue a note under which the bank agrees to pay interest and principal only if a particular country meets its sovereign debt obligations, and the instrument doesn't benefit from any external support or meaningful collateral. In this example, we would rate the instrument at the lower of the applicable sovereign bond rating and the applicable rating of the bank.

Securities with Rating-Relevant Terms That May Change Upon Changes in Regulation, Legislation or Other Events Anticipated in the Transaction Documents at the Time of Issuance⁴

To avoid the cost and administrative burden of retiring or amending securities, issuers may include certain alternate contractual provisions (the alternate provisions) that give them the right to replace an existing obligation or to change rating-relevant terms in response to changes in laws, regulations or other specified events. This guidance is limited to instruments for which changes in regulation, legislation or other specified events could change terms that are material to our assessment of the probability of default and financial loss in the event of default or impairment. Terms that are in the scope of this guidance are limited to changes in the following: the obligor(s); the guarantor(s), including the removal of a guarantor; the instrument's seniority; or the triggering events that permit write-down of the debt or that require its conversion to a more junior class of security (collectively, rating-relevant terms).⁵

For example, in some sectors, the seniority of an instrument may be altered to maintain compliance with capital regulations if new regulatory requirements make the instrument non-compliant, or the triggering events for conversion or write-down of contingent capital securities may change if new regulations would eliminate favorable capital treatment available at issuance. Transaction documents may contain alternate provisions that change the instrument's seniority based on: specified changes in tax, resolution, insolvency or other laws, accounting treatment, or a credit rating agency's methodology; or the cessation of an index or reference rate. Furthermore, some issuers seek to accommodate potential future corporate reorganizations through the transfer of the obligation to another issuer, the release of a guarantor or a change in the guarantor.

Our rating may be affected by the presence of such provisions when there is a significant likelihood that any of the specified events will occur. If the consequences of an event are contingent upon an issuer's decision to exercise its rights to invoke the alternate provisions, we also assess the likelihood that such rights will be exercised. If we consider the likelihood of the specified events leading to a change in terms to be low, we generally base our analysis on the security terms and conditions absent any such event. Where there is a multi-notch gap between how the security would be rated under its original terms and the alternate provisions and we consider there to be a meaningful or increasing likelihood that the specified events will occur, we may assign a rating at a lower level than the one that would be assigned absent the alternate provision reflecting our view of the likelihood of the specified events. In cases where there is a significant

This publication does not announce a credit rating action. For any credit ratings referenced in this publication, please see the ratings tab on the issuer/entity page on www.moody's.com for the most updated credit rating action information and rating history.

³ This section applies to fundamental issuers and transactions. For structured finance credit-linked transactions please see our sector-specific methodologies, including those that discuss our approach to rating corporate synthetic obligations and repackaged securities.

⁴ This section applies to fundamental issuers and transactions. For structured finance, where relevant, please see our sector-specific methodologies, which describe how the modeling of scenarios is complemented by qualitative analysis, which generally includes a review of transaction structure and pertinent legal risks.

⁵ Please see Rating Symbols and Definitions, which describes what Moody's ratings do and do not address. For a link to Rating Symbols and Definitions, please see the "Moody's Related Publications" section.

likelihood that a specified event will occur and the alternate provisions will be invoked, the rating would typically be based on the alternate provisions.

In cases where transaction documents contain alternate provisions, we also consider the effect of other mitigating provisions in our rating analysis. Bond indentures and related documentation often include limitations that prevent issuers from substituting or amending the terms in a way that would have a material negative impact on investors. In some cases, an opinion from an independent third party to this effect is required. Depending on their terms and enforceability, these third-party safeguards are typically favorable for creditors, because they increase the certainty that investors will not receive an instrument with materially higher credit risk relative to the obligation created at the date of issuance. For instruments with contingent provisions that lack such third-party safeguards, we consider whether and how any other provisions within the agreement might limit the risk to investors.

Credit ratings are primarily determined by sector credit rating methodologies. Certain broad methodological considerations (described in one or more cross-sector rating methodologies) may also be relevant to the determination of credit ratings of issuers and instruments. An index of sector and cross-sector credit rating methodologies can be found [here](#).

Because of the possibility of human or mechanical error as well as other factors, however, all information contained herein is provided "AS IS" without warranty of any kind. MOODY'S adopts all necessary measures so that the information it uses in assigning a credit rating is of sufficient quality and from sources MOODY'S considers to be reliable including, when appropriate, independent third-party sources. However, MOODY'S is not an auditor and cannot in every instance independently verify or validate information received in the rating process or in preparing the Moody's publications.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability to any person or entity for any indirect, special, consequential, or incidental losses or damages whatsoever arising from or in connection with the information contained herein or the use of or inability to use any such information, even if MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers is advised in advance of the possibility of such losses or damages, including but not limited to: (a) any loss of present or prospective profits or (b) any loss or damage arising where the relevant financial instrument is not the subject of a particular credit rating assigned by MOODY'S.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability for any direct or compensatory losses or damages caused to any person or entity, including but not limited to by any negligence (but excluding fraud, willful misconduct or any other type of liability that, for the avoidance of doubt, by law cannot be excluded) on the part of, or any contingency within or beyond the control of, MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers, arising from or in connection with the information contained herein or the use of or inability to use any such information.

NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY CREDIT RATING OR OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY MOODY'S IN ANY FORM OR MANNER WHATSOEVER.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any rating, agreed to pay to Moody's Investors Service, Inc. for ratings opinions and services rendered by it fees ranging from \$1,000 to approximately \$2,700,000. MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moody.com under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

Additional terms for Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657 AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail investors.

Additional terms for Japan only: Moody's Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of Moody's Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any rating, agreed to pay to MJKK or MSFJ (as applicable) for ratings opinions and services rendered by it fees ranging from JPY125,000 to approximately JPY250,000,000.

MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.
